

Question 1:

```
SELECT * from uni.student
where courseid != 1
order by CourseID
;
```

```
SELECT forenames, surname, dateofbirth
from uni.student
where emailaddress = 'val.bolger@example.com'
;
SELECT * from uni.module
where subject = 'Economics'
;
SELECT ClassID, CDate from uni.schedule
where cdate < '2020-09-21'
order by CDate
;
```

Question 2:

```
SELECT count(*) from uni.student
;
SELECT sum(fulltimefee) from uni.fees
;
SELECT min(fulltimefee) from uni.fees
;
SELECT max(fulltimefee) from uni.fees
;
SELECT avg(parttimefee) from uni.fees
;
SELECT courseid, fulltimefee-scholarshipdiscount
from uni.fees
;
SELECT courseid from uni.fees where fulltimefee = (select min(fulltimefee) from uni.fees)
;
SELECT courseid, fulltimefee-scholarshipdiscount
from uni.fees
order by fulltimefee-scholarshipdiscount desc
;
SELECT * from uni.application
where courseappliedfor = 11
    and dateofapplication
    between '2020-03-01' and '2020-08-30'
```
